Introduction

Fruit Fall is a puzzle game that will send you bananas!

Your mission is to make fruit vanish! You control mazes full of fruit. As you rotate the mazes the fruit will fall down. When three or more identical fruit end up touching each other they will vanish. Sounds simple? Don't be a lemon!

The game is set in three unique environments; a ghoulish ghost world, an underwater lost city, and also in deep space.

The aim of the game is to conquer all the levels and win all 15 stars.

The aim is to complete each level within the time limit, to advance to the next level. Points are awarded for completing the levels quickly, and bonuses can be won for clearing multiple fruit types in one move.

As you complete more levels, more stages will be unlocked for you to tackle.

Tight Turn Mode

Tight Turn mode is for experts.

In this mode it is more important to complete the levels using the fewest moves. The aim is to complete each level within the allotted number of moves.

Each level has a target score for you to beat before advancing - but why stop there? Try and beat your own hi-scores.

Multi Player

You can choose 2 - 4 players in this multi player game

Arcade Mode

Play any unlocked stage, the first to complete all five levels within a stage wins.

Remember you can press L1 + L2 or R1 + R2 to reset the level if you get stuck! There are no lives to lose in this mode - it's just a race to the finish.

Playing Tips

Want to become a Fruit Fall master? The following tips might help!

- In arcade mode why not make a move when you're not sure what to do - it might give you new opportunities

- Be careful on levels with more than 3 of any single fruit - its possible to leave less then 3 of a fruit, resulting in a stalemate

- Sometimes the best thing to do is reset a level and start again!
  Press L1 + L2 or R1 + R2 to surrender a level. If you take this option you will lose a life, and have to start the level again
